Reflections of SMA

Ray

I learned to be kind and how to pray as well as singing praises to God. In health class, I learned that smoking is a bad habit and that it affects the lungs and our body. I appreciate my teacher teaching me more about Jesus and how He died on the cross for our sins.

I have learned many scripture songs and how to pray better. I learned to respect people around me. I am so thankful for all the things the Lord has taught me. I can share it with others and it will be a blessing and save many lives.

Since I came to SMA, I learned how to serve God and how to love each other. Every morning at school, we sing songs and read from God's Word. This has given me a blessing and I share it with my mom when I come home.

During this year I've learned that when you put Jesus first in everything you do, He will give you understanding in your other subjects. We don't have to worry what tomorrow may bring us. Just trust trust in God fully.

I learned how to pray while attending SMA. Praying with others is a very nice thing. I also learned that obeying your parents is like obeying God. And obeying God is the most important thing in life.

The valuable lessons I've learned this year is to be kind, unselfish, and put others first. Also I learned that smoking affects the health. So when someone tells me to smoke, I will say, "No."

This school year I learned about the Bible. This was the most enjoyable school year. When I was in public school, I was not taught about the Bible. The most important subject is Bible. It helps us have a closer relationship with God.
