

**The medical missionary work is the gospel in illustration. {CH 1923}**

*Christopher and Audrea McBean*

We are Christopher and Audrea McBean from the beautiful Island of Jamaica and are the founders of – **The Gospel in Illustration Ministry.**

We came to Guyana as volunteer missionaries for **Gospel Ministry International**, whose president is **Mr David Gates**, where we served in the village of Siparuta for 22 months and have been serving in the Village of Bethany since June of 2011.

We are teachers at the Bethany Medical Missionary College, officers in the local church and Medical Bible Workers.

Christopher and Bro. Noland along with their wives, preparing to go up the Supenaam River to conduct Sunday Night meetings with fellow church members. The attendance is normally 30-60 persons.

These church members would not attend Sunday night at the Bethany Church because they would have to paddle in their boats about 7 miles in the night to get to church and then another seven mile to get back home.

Meet the staff and students of Bethany Missionary College 2012. At the end of the program, we had student who desired to be full time missionaries, others were considering how to use the knowledge gained at the home churches and in their communities.

Audrea preparing her garden bed with Ravey (a student) asking some questions. Take a look inside the school's new oven, baking just got quicker and smoke free. Farming and baking healthful food are two of the practical skills we teach the student how to survive as a jungle missionary.

Bertela David and Annicia Ewin (students) are two precious souls who were won to the Lord with much prayer and encouragement.

They possess many skills and abilities that will be a blessing to the church in which they choose to serve.
